PROFESSIONAL SUMMARY

Full Stack Web Developer with expertise in building secure web applications using JavaScript and Java. Developed an RSA-based document storage system and a machine learning model for detecting cybersecurity threats. Skilled in creating innovative solutions with a strong foundation in HTML, CSS, and JavaScript.

EDUCATION

The Nobel Boys High School, Kalaburagi — **2009 - 2019**

Gurukul Independent Pre-University College Of Science, Kalaburagi — **2019 - 2021**

Bachelor of Engineering in Information Science Engineering, PDA COLLEGE OF ENGINEERING, Kalaburagi — **2021 - Present**

SKILLS

- **Full-Stack Web Development:** React js, Node js.
- **Object Oriented Programming in JAVA**
- **Frontend Development**
- **HTML, CSS, JavaScript**
- **Database Management: MySQL**
- **Version Control: Git, GitHub**
- **Leadership Qualities**
- **Mentorship and Collaborations**

ADDITIONAL INFORMATION

- **Soft Skills:** Communication, Teamwork, Problem Solving.
- **Languages:** English, Kannada, Hindi.
- **Certifications:** Java Developer Certificate from Certiport, Web Development Certificate from Coding Raja Technologies

EXPERIENCE

Full-Stack Web Development Internship at VKREVER Private Limited **2023**

- Developed a secure document storage web application using Full Stack technologies, incorporating the RSA algorithm for robust data encryption and secure sharing of legal and other sensitive documents.
- Enhanced accessibility by eliminating the need for constant internet connectivity to view stored documents, effectively addressing a key limitation of existing platforms like DigiLocker.
- Collaborated with a team to design and implement user-friendly features, ensuring seamless document management and secure data sharing between users within the application.

Mini-Project on Cyber Security **2024**

- Developed a machine learning model to detect LOLBins and ADS scripts using Random Forest classifiers and NLP.
- Enhanced threat detection by integrating NLP for accurate classification of potential security risks.
- Boosted detection accuracy and efficiency by optimizing the Random Forest classifier.
