EDUCATION

PDA College of Engineering <i>Bachelor of Engineering</i>	Kalaburagi, Karnataka 2021 – 2025
Gurukul Independent PU College of Science <i>Higher Secondary Education</i>	Kalaburagi, Karnataka 2019 – 2021
The Nobel Boys High School <i>Secondary Education</i>	Kalaburagi, Karnataka 2009 – 2019

TECHNICAL SKILLS

Languages: Java, JavaScript, TypeScript, SQL, HTML/CSS
Frameworks & Libraries: Spring Boot, React.js, React Native, Node.js, Express.js
Databases: MySQL, MongoDB, PostgreSQL
Developer Tools: Vercel, Stripe, Git, GitHub, Docker, MongoDB Atlas, Figma

EXPERIENCE

Software Engineer Intern <i>Cascade Technologies Solutions</i>	Oct 2024 – Apr 2025 <i>Remote</i>
- Developed a scalable full-stack e-learning platform, <i>Sparkids</i>, using a microservices architecture with Spring Boot for the backend and a modern interface built with React.js. - Designed and implemented a set of RESTful APIs to manage course content, user data, and authentication. - Built a secure user authentication and authorization system using JWT (JSON Web Tokens) to enhance data security and access control. - Integrated MySQL and MongoDB databases to optimize storage for both structured user information and flexible course content, ensuring high performance and reliability.	

PROJECTS

Portfolio

Sparkids: Full-Stack E-Learning Platform <i>Java, Spring Boot, React.js, MySQL, MongoDB</i>
- Designed and developed a full-stack e-learning platform designed to support 100+ concurrent users. - Built a robust backend using Spring Boot with over 25 RESTful APIs for managing courses, user profiles, and quizzes. - Designed a responsive frontend using React.js, creating a library of 40+ reusable components and 15+ unique pages for a seamless user experience. - Implemented secure authentication with JWTs, supporting three user roles (Student, Instructor, Admin) to ensure data protection.
AI Interview Assistant <i>React.js, Gemini API, ShadCN/UI</i>
- Built and deployed an AI-powered interview assistant using React and Redux to automate the technical screening process with a responsive, modern UI. - Integrated the Google Gemini API to parse resumes, generate questions, and evaluate candidate performance for a fully AI-driven interview experience. - Implemented key features including local data persistence for the interviewer dashboard and a pause-resume mechanism to improve usability and reliability.

CERTIFICATIONS

Java Certification – Certiport

AWARDS & ACTIVITIES

Second Place – Technovision 2025 Competition
